OneCare Private Network

Elevate Your Network with Seamless, Secure Connectivity

In a connected world, reliable networks are essential for success. CypressTel's OneCare Private Network offers robust MPLS with fully meshed and Layer 2 Ethernet topologies, ensuring secure and scalable connectivity. This solution empowers businesses to streamline their operations, enhance security, and secure enterprise deals in diverse global markets. With our advanced technology, you can boost performance, protect data, and foster collaboration, positioning your clients for growth.

How It Works

Our MPLS network connects multiple sites with fully meshed or Layer 2 Ethernet topologies, enabling secure, scalable communication and seamless collaboration across your clients' operations.

Network PoPs in Asia and Worldwide

Hong Kong, Mainland China, Japan, USA, Germany, UK, Korea, Thailand, India, Australia, Singapore, Indonesia, Malaysia, United Arab Emirates, and more

Key Features & Benefits

Flexible Topologies
Fully meshed and Layer 2 Ethernet topologies across 140+ PoPs deliver seamless connectivity. Scale effortlessly to meet client needs, empowering businesses to expand portfolios and capture opportunities in diverse digital markets.

Traffic Optimization
Smart label-based routing minimizes congestion, ensuring blazing-fast packet delivery. Enhance client applications' performance, helping businesses boost user satisfaction and cement loyalty in competitive markets.

Prioritized Performance
Class of Service (CoS) and Quality of Service (QoS) prioritize critical traffic, guaranteeing bandwidth for key applications. Deliver consistent, high-quality connectivity, positioning businesses as trusted enterprise partners.

High Availability
Redundant architecture and a 99.99% SLA ensure uninterrupted connectivity. Secure, reliable networks build unshakable client trust, enabling businesses to maintain uptime and strengthen long-term contracts.

Comprehensive Solutions
Integrate MPLS with SD-WAN and SASE for a one-stop solution. Simplify client deployments, reduce costs, and drive businesses growth with advanced, scalable network services tailored for enterprises.

Why CypressTel?

CypressTel empowers businesses to excel. Our scalable, carrier-neutral network spans 140+ PoPs, unlocking enterprise deals. Accolades back our solutions, boosting contract wins. Innovator alliances deliver 5G and cloud, crushing client churn. Comprehensive services cut costs, amplify margins. Trusted 17+ years across 10,000+ sites, we ensure reliable wins.
